

NEW for 2022!

How to Purchase

Annual Day Use and Camping Permits

Wyo Parks is moving to a new and improved system for annual permit sales! While we transition to the new system, in-person sales at parks or selling agents are temporarily on hold. In the meantime, **permits can be purchased through Reserve America online at www.wyo-park.com or by phone at 877-996-7275.** Please note that additional vehicle permits are only available through the call center (not available online).

Benefits to the New System:

The new system will streamline the customer experience by linking permits to the customer's account with Reserve America. This will also help Wyo Parks combat misuse in the reservation system. Each year, thousands of dollars are lost to misuse of the reservation system such as:

- Use of fake permit numbers
- Sharing permit numbers
- Creating multiple accounts to book more sites/more days than allowed

Preventing these types of abuse will help ensure that visitors are paying their fair share. Visitor fees are vital to Wyo Parks! 100% of revenue collected through visitor fees goes right back to parks and sites to fund new construction, improvement projects, site interpretation and maintenance. We also think these changes will increase campsite availability by reducing no-shows and improving compliance for length of stay limits.

More Information:

Thank you for your patience as we make these important enhancements to our system. For more information please contact Wyo Parks headquarters by phone at 307-777-6323 or email to state.parks.parks@wyo.gov .
